

FEEL ALIVE®

I believe in the power of human potential;
creativity, imagination and the amazing things
we're all capable of when we're inspired.

I believe in taking the unconventional road
and going the extra mile to do work that inspires,
because I believe the highest purpose of being human
is to uplift other humans.

I believe in artisans, designers, engineers and ambassadors
who pour human energy into their work,
because I believe there are things the human hand can do
that can't be replicated by a machine or a computer.

I believe in the power of cars to move human emotions.
To awaken senses, heighten reflexes, make pulses race.
To be more than a cold machine designed to take
you from here to there.

I believe the joy of being alive comes from
what we discover on our journey,
and the inspiration we find in every mile.

MAZDA. FEEL ALIVE.®

ARTFUL DESIGN

The Japanese art of flower arrangement, Ikebana, expresses a philosophy of essentialism. Ikebana uses color combinations, graceful lines and a harmony among the materials, the vase and the setting. Its beauty comes from refining a composition to its simplest form. Similarly, Mazda's design is based on extracting beauty by showcasing what is essential and eliminating the unnecessary.

A philosophy eloquently expressed in the Mazda6.

It captures motion. And evokes emotion. It eliminates all that is unnecessary, leaving only what is beautiful. Its lines effortlessly draw the eye to every angle and curve. It channels reflections of light and shadow, constantly reinventing itself in every new environment. It is Kodo: "Soul of Motion" design.

The Speed Form featured is a sculptural exploration done by the designers at Mazda. Created by the hands of master artisans, it becomes the inspiration for its final design stage: the Mazda6.

Truly beautiful design goes beyond simply being aesthetically pleasing. It invites action. With its sleek, seductive profile, the Mazda6 demands to go new places. For you to see more. Feel more. And expand your possibilities. Inside, the available ambient LED cabin lighting highlights an elegant cabin perfectly set to host new experiences and entertain bold ideas. With every glance, every curve and every mile, there is always more to discover and be inspired by.

Visit [MazdaUSA.com](https://www.mazdausa.com) to see all the vibrant color choices available.

Every aspect of our design process is intentional. Including the paint. Before a single drop of color is applied, master painters first perfect their technique by hand. Ensuring the surface of the Mazda6 has depth and saturation. Illuminating the curves and characteristics of our Kodo design. They apply color with the precision of highly sharpened senses. Even the machines used to paint the Mazda6 are so well-calibrated that they replicate the exact movement of this human technique. Our daring array of lustrous hues may be the final touch on the Mazda6, but it is the first thing that will catch your eye.

Mazda has created thoughtfully designed accessories that perform seamlessly with your Mazda6. From the rear spoiler to the moonroof wind deflector (shown), Mazda accessories consider every aspect of driving down to the finest detail. When installed by your Mazda Dealer, Genuine Mazda Accessories carry the same New Vehicle Limited Warranty as your new Mazda. For a full list of Genuine Mazda Accessories for your Mazda6, please visit [Accessories.MazdaUSA.com](https://www.mazdausa.com/accessories).

JAPANESE MASTERY

The Mazda Takumi are the artisans and craftsmen who hone their skills for years, even decades, to achieve mastery. From their first sketch to the final stitch, their passion, patience and dedication are infused into every vehicle. The Takumi master clay modelers are so highly trained that decisions about form are not only a visual matter, but also a tactile one. Curvatures of different forms are sometimes sculpted with eyes closed, refined just by touch. Their exhaustive efforts to perfect their craft are made to leave you with their very best. They believe that their efforts impart a piece of themselves into their work. From designer to driver, this connection ultimately creates an enriching emotional bond between you and your Mazda.

Images for illustrative purposes only.

It's a mark of pride. A symbol of authenticity. Nowhere is our unique expression of craftsmanship and mastery more pronounced than in our Signature trim. Ultrasuede® adorns the doors and dashboard and radiates a subtle gold sheen, using a technique similar to that which is used to make ornate kimonos. Natural materials like supple Nappa leather and Japanese Sen wood, often used for furniture and musical instruments, reward your senses. And leave you in a better state of mind after every drive.

HUMAN CENTRICITY

For decades, we've studied the human body: how it moves, sensations of touch, sound and sight, muscle and skeletal structure. Every consideration has been made so the Mazda6 feels as if it was built around you. Effortlessly responding to your direction. This is the human-centric design philosophy known as Jinba Ittai—horse and rider as one. You feel as though your Mazda is an extension of your body.

In everything we do, we aspire to make your driving experience as intuitive as possible. Creating a oneness between you and your vehicle. Seamless connections that help you engage with the moment. Which is why we engineer to a feeling, not a specification. To leave you energized. Rejuvenated. You, at one with your Mazda.

The most important component to a better driving car is the driver. That's why we put so much attention to creating the optimal driving position. The seats of the Mazda6 were designed to work with the suspension and chassis to keep the driver's head level and balanced. All interior appointments were placed with precision to allow the driver to reach naturally and with ease. For added comfort, select Mazda6 trims offer ventilated front seats that wick away warm air from the driver's and front passenger's back and lower body, to help keep both cool and dry.

Your inspiration. Your space. Your command station. This is the driver-centric cabin of the Mazda6 where every control is ergonomically situated within your reach, so you can stay focused on the road ahead. An intuitive instrument panel places gauges and displays within your line of sight to minimize distraction. An 8-inch center display shows music information, maps, and more, with clarity. The center console and Commander control are positioned for optimal comfort of the wrist and forearm. And the Mazda Connect™ Infotainment System¹ is equipped with available Apple CarPlay™ (shown) and Android Auto™ integration². Communication between you and your vehicle becomes second nature—by design.

¹ Don't drive while distracted. Even with voice commands, only use Mazda Connect™/other devices when safe. Some features may be locked out while the vehicle is in motion. Not all features are compatible with all phones. Message and data rates may apply. ² Requires compatible phone and standard text and data rates apply. Third-party interface providers are solely responsible for their product functionality and third-party terms and privacy statements apply. Don't drive while distracted or while using a hand-held device. Android and Android Auto are trademarks of Google LLC. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc.

INGENIOUS SOLUTIONS

While performance can be quantified, emotions cannot. The available Skyactiv®-G 2.5T DOHC 16-valve 4-cylinder Dynamic Pressure Turbo engine delivers up to 250 hp¹ and 310 lb-ft of torque. Impressive numbers, but only numbers, until you experience the Mazda6 firsthand. Our Skyactiv-Drive 6-speed automatic transmission is geared for you to feel the thrill in every pound of torque and horsepower—when and where you need it most. So each drive is more responsive, expressive. And enjoyable.

¹ 250 hp with 93 octane fuel. 227 hp with 87 octane fuel.

Every aspect of the Mazda6 is engineered to work in harmony with your sensibilities. From the chassis to the transmission to the engine to the seats and beyond, we've designed each aspect of our cars to be powerful, efficient and intuitive to your needs. Every effort has been made to enhance the joy from driving through a completely holistic, smarter approach: Skyactiv® Technology. Bringing car and driver together to create inherent connection.

360° View Monitor shown.

To heighten your senses, we created a few of our own. Sophisticated safety innovations that alert you to hazards and help you avoid collisions—or lessen their impact. That's the thinking behind i-Activsense®. This standard suite of select i-Activsense® safety features¹ such as Blind Spot Monitoring² and Rear Cross Traffic Alert² help improve your visibility and awareness of the road.

¹ i-Activsense® safety features are not a substitute for safe and attentive driving. There are limitations to the range and detection of each safety feature. Additional information provided in Specifications. Please see your Owner's Manual for further details. ² Always check your mirrors. Be aware of the traffic around you. There are limitations to the range and detection of the system. Please see your Owner's Manual for further details.

EFFORTLESS JOYFUL DRIVING

Sometimes silence is just as important as sound. The Mazda6 is engineered to help insulate you from distracting outside noise, while still allowing for sounds from the road and engine so your connection to the drive is heightened. Your levels of stress and fatigue are lowered. It's all about shielding you from all that is unnecessary, so you can focus on what will bring you joy: exceptional driving.

Driving should reward the senses, not confuse them. Skyactiv-Vehicle Dynamics with G-Vectoring Control Plus is an innovative technology designed to deliver a smoother, more intuitive, driving experience. As the Mazda6 enters a turn, the system subtly adjusts power delivery and the car's brakes to shift vehicle weight throughout the turn to provide more precise steering. Curves will feel more natural. And you'll feel more confident.

We build every Mazda to inspire. How you feel is our rule of measurement.
We believe driving should be effortless. And that joy should be found in every turn
and every straightaway. We believe driving should exhilarate every fiber of your being.
Because it can. And this is why we built the Mazda6.

MAZDA. FEEL ALIVE.®

SPECIFICATIONS

ENGINES

SKYACTIV®-G 2.5L DOHC 16-valve 4-cylinder engine with Cylinder Deactivation (Sport, Touring)

187 hp @ 6,000 rpm

AVAILABLE ACCESSORIES

Wheel Locks (Chrome or Black), LED Ashtray, First Aid Kit, Mazda Keychains & License Plate Frames, Mazda Mobile Start, Frameless Auto-Dimming Mirror with HomeLink®, Roadside Assistance Kit, Tire Valve Stem Caps (Chrome or Black), Touch-Up Paint (Color specific), Windshield Sunscreen, Rear Spoiler, Rear Bumper Guard, Doorsill Trim Plates, Navigation System, Moonroof Wind Deflector, All-Weather Car Cover, All-Weather Floor Mats, Splash Guards (Front & Rear), Cargo Tray, Carpet Cargo Mat, Cargo Net, Rear Parking Sensors, Remote Engine Start, Side Window Deflectors, Alloy Pedals, Collapsible Cargo Carrier

¹ 360° View Monitor may not provide a comprehensive view of the entire surrounding area of this vehicle. Always check your surroundings visually. Please see your Owner's Manual for further details. ² Always check your mirrors. Be aware of the traffic around you. There are limitations to the range and detection of the system. Please see your Owner's Manual for further details. ³ Traffic Sign Recognition System is not a substitute for safe and attentive driving. Factors including weather and condition of the traffic sign can impact recognition or display of the sign. Always check traffic signs visually while driving. Please see your Owner's Manual for further details. ⁴ SiriusXM audio and data services each require a subscription sold separately, or as a package, by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Sirius satellite service available only to those at least 18 and older in the 48 contiguous U.S.A., D.C., and P.R. (with coverage limitations). Current information and features may not be available in all locations. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. ⁵ Smart Brake Support with collision warning operates under certain conditions above 10 mph. It is not a substitute for safe and attentive driving. Factors including movement and shape of the object in front of the vehicle, weather and road conditions can all impact automatic brake control and collision warning. Please see your Owner's Manual for further details. ⁶ Advanced Smart City Brake Support with Pedestrian Detection operates under certain conditions between about 2 and 50 mph. Pedestrian detection operates at speeds above approximately 6 mph. Not a substitute for safe and attentive driving. Factors including movement and shape of the object in front of the vehicle, weather and road conditions can all impact automatic brake control and collision warning. Please see your Owner's Manual for further details. ⁷ Mazda Radar Cruise Control (MRCC) with Stop & Go is not a substitute for safe and attentive driving. There are limitations to the range and detection of the system. Driver action is required to resume MRCC with Stop & Go after a complete stop. Please see your Owner's Manual for further details. ⁸ Lane Departure Warning System and Lane-keep Assist operate under certain driving conditions above 37 mph. Neither system is a substitute for safe and attentive driving. There are limitations to the range and detection of the systems. Please see your Owner's Manual for further details. ⁹ Don't drive while distracted. Even with voice commands, only use Mazda Connect™/ other devices when safe. Some features may be locked out while the vehicle is in motion. Not all features are compatible with all phones. Message and data rates may apply. ¹⁰ Rearview Camera does not provide a comprehensive view of the entire rear area of this vehicle. Always check your surroundings. ¹¹ Requires compatible phone and standard text and data rates apply. Third-party interface providers are solely responsible for their product functionality and third-party terms and privacy statements apply. Don't drive while distracted or while using a hand-held device. Android and Android Auto are trademarks of Google LLC. Apple Carplay, iPhone and Siri are trademarks of Apple Inc. ¹² Always wear your seat belt and secure children in the rear seats in appropriate child restraints. ¹³ Dynamic Stability Control (DSC) is an electronic system designed to help the driver maintain control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether DSC will be effective in preventing loss of control. Please see your Owner's Manual for further details. **PRODUCT CHANGES AND OPTIONS AVAILABILITY:** Following publication of this brochure, certain changes in standard equipment, options, prices and the like—or product delays—may have occurred which would not be included in these pages. Your Mazda Dealer is your best source for up-to-date information. Mazda reserves the right to change product specifications at any time without incurring obligations.
